

Mantis Polywoven

- ✓ Lightweight and flexible
- ✓ UV and Tear Resistant
- ✓ Waterproof and Mildew Resistant

Polyweave/Polywoven/Polytarp (polyethylene tarpaulin) features a double laminated reinforced Polywoven construction, offering water and dust resistance for temporary applications in both interior and exterior settings. Widely utilized in the realm of building and construction, it provides effective protection for floors, walls, stairways, and various surfaces. Furthermore, Polyweave serves as a proficient solution for temporary weatherproofing requirements.

Key Features:

- Waterproof: Keeps things dry in rain or snow.
- UV Resistant: Doesn't get damaged by sunlight.
- Tear Resistant: Strong and doesn't easily rip.
- Mildew Resistance: Doesn't grow mold in damp conditions.
- Lightweight: Easy to carry and move around.
- Flexible: Bends and folds easily.
- Versatile: Comes in different sizes for various uses.
- Economical: Affordable and does the job well.
- Color Options: Available in different colors.
- Temporary Shelter: Often used for quick shelters outdoors.
- Customization: Can be ordered in specific sizes or features.
- Designed with an anti-slip surface for safety.
- Cost-effective, facilitates easy post-construction cleanup.

Mantis Polywoven

- ✓ Lightweight and flexible
- ✓ UV and Tear Resistant
- ✓ Waterproof and Mildew Resistant
